Coventry Road, Fillongley, Coventry.CV7 8EQ

**REGISTERED CHARITY NO: 228210**

---

Clerk to the Trustees: Mrs Heather Badham,  
Telephone 01676 549193 clerk@fillongleyparishcouncil.co.uk

## **ENVIRONMENTAL POLICY**

### **1. The objectives of our policy are:**

- To ensure the most efficient use of materials by using renewable, recycled and recyclable products.
- To minimise waste, especially hazardous waste, and wherever possible recycle or reuse materials.
- To use energy responsibly by conserving energy, improving energy efficiency, and giving preference to renewable resources.

### **2. The implementation of our policy:**

We will ensure that our environmental objectives are integrated into the decisions we take on all our services and will seek to:

2.1 Make the most efficient use of energy. We will endeavour to use the minimum quantities of energy possible in accordance with the safe and efficient operation of heating, lighting, plant and machinery

2.2 Minimize and where possible eliminate all forms of pollution, minimizing use of solvents and lead-based paints. Users will be encouraged to avoid creating noise pollution, especially at night.

2.3 Use the minimum quantities of water possible in accordance with our activities and ensure that the water we use is both supplied and disposed of, in the purest condition possible, meeting statutory requirements. We will reduce leakage and eliminate excessive or unnecessary use, e.g. through avoiding unnecessary flushing of urinals when the hall is not in use.

2.4 Avoid waste and encourage the appropriate conservation, re-use and recycling of resources. We will re-use and recycle materials as far as possible and, if this is impractical, disposal by a means which will have the least impact on the environment and conforms to statutory requirements. We will encourage users and staff to minimize waste, including the provision of separate disposal facilities for recycling glass, tins and paper.

2.5 Promote a sense of responsibility and understanding for the environment and participation in environmental issues.

2.6 Purchase from local or regional suppliers, in order to maximize input to the local

community and minimize carbon emissions from transport.

2.7 Protect the health and well-being of all staff and visitors.
